User Interface and Design

Roll no: 240701195

Name : Iniyan V

Aim:

Experiment with different layouts and color schemes for an app. Collect user feedback on aesthetics and usability using GIMP(GNU Image Manipulation Program (GIMP).

Initial Design :

Home Page:

Login / Sign Up Option

- Button labeled: **"Login / Sign Up"**
- Allows users to either:

- Log into an existing account
- Register as a new user

Page 2 : Food Page

Header Section

- Includes:
  - Back Button (←) → Navigate to previous screen
  - Menu Icon (☰) → Opens navigation options
- Title: “FOODS”
- Positioned at the top

Search Bar

- Allows users to search for food items
- Includes:
  - Input field
  - Search icon

- Improves usability and quick access

Food Items Display

- Food items are shown in a grid layout
- Each item includes:
    - Food image
    - Food name (e.g., Biriyani, Pizza)
    - Price (e.g., Rs.60, Rs.100)

Page 3:

Function

About the Application

1 response

initially the food delivery app has less ui interface as a user i feel some uncomfortable ui environment and also in background and fonts

What improvements Did you expect ?

1 response

improve more interface and style and also change the color or background image
