

Exercise 8

Name: Iniyan V

RollNo: 240701195

Create storyboards to represent the user flow for a mobile app **(e.g., food delivery app)**

AIM:

The aim is to create storyboards representing the user flow for a mobile app, such as a food delivery app

PROCEDURE:

Step 1: Define the User Flow

1. Identify Key Screens:

- List the main screens your app will have (e.g., Home, Menu, Cart, Checkout, Order Confirmation).

2. Map the User Journey:

- Understand the typical user journey through these screens (e.g., browsing menu, adding items to cart, checking out).

Step 2: Create Storyboards Using Balsamiq

1. Install Balsamiq:

- Download and install Balsamiq from the <https://balsamiq.com/> website.

2. Create a New Project:

- Open Balsamiq and create a new project.

3. Add Wireframe Screens:

- Use the “+” button to add new wireframe screens for each key screen in your app.

4. Design Each Screen:

- Use Balsamiq's components to design the UI for each screen.
- Include basic elements like buttons, text fields, and images.

5. **Organize the Flow:**

- Arrange the screens in the order users will navigate through them.
- Connect the screens with arrows to represent user actions.

Screens:

1. Welcome screen

2. Catalouge Screen

3. Product Info screen

4. Checkout screen
